INSERT NEW FINDING OF FACT:

"The ALJ and Staff concluded that there will be little growth within the service area. However, between 5,000 and 10,000 homes could be constructed within the service area in future years. If this growth develops, hook-up fees may be appropriate to finance new plant and mitigate the rate shock on existing customers."

INSERT NEW ORDERING PARAGRAPH:

"IT IS FURTHER ORDRED that by January 31, 2007 and annually thereafter, Coronado Utilities shall file with Staff a report on any new development within its service territory. This report shall be filed annually by January 31, until Coronado Utilities next general rate case. Staff shall review this report and determine whether the implementation of hook-up fees would be appropriate."

Make all conforming changes.
